

Grease Trap and Interceptor Cleaning & Pumping

Baker Commodities Inc.
Recycling for Life®

Servicing your grease trap and interceptor system regularly can prevent solids, grease, fats and oils from clogging your outbound sewer lines. Baker Commodities' grease trap and interceptor cleaning and pumping services thoroughly remove all materials from your grease trap and interceptor. We fully remove grease, water waste and solid materials from your location and recycle at our environmentally-friendly facilities. Baker Commodities' team of highly-skilled technicians ensures that clients receive the high quality service they deserve...every time!

Our Total Grease Management™ (TGM) Program is also available to meet your grease removal, plumbing and cleaning needs. We can customize the perfect program for you, including:

- Used Cooking Oil Collection
- Drain Cleaning & Plumbing
- High-Pressure Power Washing with Water Recovery
- Preventative Maintenance

Services We Offer:

- Full removal of material, pumping contents of trap
- Scrape and clean interior walls
