FEATURES

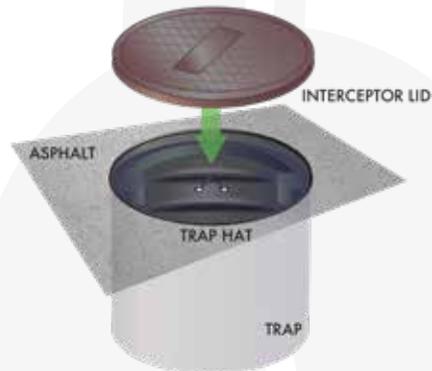

The Trap Hat comes fully assembled, dropping down about 2" into the trap and sealing off odors that might otherwise permeate your restaurant. The Trap Hat can be installed by your Baker trap service technician upon request.

BENEFITS

- Eliminates most trap & interceptor odors from lid
- Keeps lids and ring assemblies from rusting together
- Makes it safer to remove and replace lid
- Affordable, easy-to-use, immediate solution

TRAP HAT

Troubled by noxious odors escaping from your grease traps or interceptors? Baker Commodities has invented an affordable, easy-to-use custom solution that will keep your restaurant trap odor-free. Baker Commodities' Trap Hat eliminates and prevents odors from escaping grease traps and interceptors through the lid and ring assembly. It also prevents the lid from rusting or sticking to the retaining ring and eradicates the need to caulk the lid and hammer it free when traps need to be opened for service.
